Mr. and Mrs. William F. Lt. Rice graduated from the Oakland High School in 1941, and attended the University of California College of Engineering until his induction in January, 1943. He is a member of Alpha Tau Omega Fraternity, and prior to entering the service was the pianist and leader of a dance band popular among fraternity and sorority circles in Berkeley and the Eastbay.

On Saturday, April 22, his parents, Mr. and Mrs. Herbert Wayne Rice, held open house, entertaining 150 guests in his honor. Mrs. Rice was for many years postmaster in the Pleasanton postoffice.

NUMBER 17

"TWO STRIPER"

Your editor was somewhat excited to receive an official War Department letter Tuesday evening, via airmail from the headquarters of the Fifth Army overseas. It came in a specially printed envelope marked "Official Business. Certified to be WD urgent. Official Air mail." It was even cleared for publication and initiated by the Army Field Censor. Perhaps the invasion was starting?

The dispatch, bearing a series of eight digits and four dashes, contained the following: (quote)

WITH THE FIFTH ARMY, ITALY — Private Tony E. Correia, son of Mrs. Mary Correia of Niles, California, has been promoted to corporal. He is serving with the 3rd "Marine" Division of the Fifth Army in Italy.

(end)

We, sitting safely 6,000 miles away from the scene of action congratulate the rising young man, but we feel somehow—deflated!

3 WITHERLY SONS IN ACTIVE SERVICE

MISSION — Friends of Mrs. Cassie Witherly, a former resident of our town for many years will be pleased to hear that she and her sister-in-law, Miss Claire Witherly stopped over in the Mission on their way to San Jose, Claire's home. Cassie resides in Oakland at present. She informed friends that her son, Aviation Cadet DEXTER WITHERLY has finished his basic flying training at Merced Air Field and has been sent to Fort Sumner, New Mexico, an advance Army flying field where he will receive his finishing lessons. This will take ten weeks. His wife has gone with him as he will be ready to "go over" when this training is through.

Mrs. Witherly's youngest son RICHARD is in Harlingen, Texas and is an aerial engineer. NED is in Honolulu in the army and has been stationed there for the past two years. All the boys attended Mission Grammar School and Washington Union High School. Daughters, June lives in Oakland and Helen Mae, in Vallejo. Both are married.

SOLDIERS' BRIDE

MISSION — Miss Margaret Mora stole a march on her friends and relatives on Monday April 22 and became the bride of Pfc. JESS RODRIGUES at the Oakland Court House in Oakland. Pfc. Rodriguez has been stationed in the Aleutians for the past two years and had been sent back to the U. S. for a much needed rest and well earned furlough. Mrs. Rosa Lago, sister of the bride and her husband Frank Lago of Niles stood up with the young couple. After a two weeks honeymoon close to home Mrs. Rodriguez will return to her work in Oakland and will continue to live with her parents, Mr. and Mrs. Julian Mora here. Pfc. Rodriguez will return to camp.

WEARER OF PRES. CITATION VISITS IN THE MISSION

MISSION — Recently Mr. and Mrs. Jack Pereira entertained Staff Sgt. ANDREW M. JACKSICK, U. S. M. C. and his sister, Pvt. CATHARINE M. JACKSICK, WAC of Indiantown Gap, Pennsylvania. Sgt. Jacksick, a veteran of five major battles in the southwest Pacific area has served 23 months in combat and came home to spend a few months in much needed rest. He has been given a Presidential citation and was reported missing for some time but to everyone's great joy "came back". He does not discuss his experiences over there as he'd sooner forget. His sister, Pvt. Catharine, who got a furlough to come west to see her brother returned to her station about a week ago.

LT. STUART McCURE IS NOW "DADDY"

MISSION — Your correspondent seems to have slipped up on the job of news-getting for I just learned Saturday when Mrs. Margaret Moore McCure arrived in town from her home in Piedmont that she is already a grandmother of four months. Where have I been! Anyway "it" is a lovely baby girl, born December 16 at Richmond, Virginia at the home of her maternal grandmother, Mrs. Torrance.

Who is she? The proud daddy and mother are Lt. and Mrs. Stuart McCure, former Mission young folks. Lt. McCure is now stationed at Camp Van Dorn, Mississippi as an instructor. The little miss has been named Torrance (her mother's maiden name) Moore, for her paternal grandmother (maiden name) so it is Torrance Moore McCure. A late welcome but never-

TOWNSHIP WOMEN OUTVIE EACH OTHER FOR UNCLE SAM

The drama section of the Country Club of Washington Township has been up to varied tricks in the last few weeks, selling bonds under the women's division of the war finance committee—got rid of more than \$2000 and signed up a number of babies for the Treasury's Cradle Roll of Honor.

(Any baby born since Pearl Harbor will be listed on the honor roll if a bond is bought at Washington Township banks or post offices. Be sure to ask for the certificate when you buy the bond.)

Some of the stunts by which the drama section members disposed of bonds were reported at a recent meeting at the home of Mrs. Wilda Mette. The ladies did the work, giving their services, in return for which the persons served bought bonds. The bond buyer buys the bond and gets the services free. Not bad in this day of manpower shortage!

For instance: Dorothy Marriott and Joe Walton washed automobiles; Mrs. Walton and Ilene Smith took care of children for their friends; Barbara Clark did a dish-washing job; Lois Blacow did a dressmaking job; Mrs. Marriott, Tillie Gould, Claribel Norris and Elizabeth Harvey "hired out" as gardeners; Nila Connolly did a wedding job; Theo Overacker and Mildred Logan took care of a pair of jobs; Nellie Shinn changed the shelf paper in a friend's kitchen; Pat Hill washed windows AND A DOG; Ruth Robbins and Dorothy Belshaw baked cakes and pies for their neighbors and Wilda Mette played traffic officer for one of her pupils and counted ration stamps for a Newark grocery.

They are challenging all comers for the best record for a stunt day.

Buy a Bond for Mothers Day WHAT HO! WOMEN STREET SWEEPERS?

Women street sweepers may be seen "doing their stuff" at Niles one of these days—maybe—if a lady "spark plug" puts over her proposal made Monday to the Niles Chamber of Commerce that a group of local ladies (who know which end of a broom and shovel go first!) are willing to manure the main street at Niles IF the Chamber will find 10 men who will each buy a \$100 War Bond.

President Dee Dias expressed his interest in the project and promised a definite answer next Monday at their noon meeting at the Florence Restaurant. He said it should be worth \$1000 at least to the Niles boost body to have the Niles streets cleaned for once (tho' the county does them free every chance they get time, labor and a truck to do it with!)

Mrs. Sara Boggini finally received the overseas address of her son Pvt. THOMAS J. BOGGINI who has been gone from the U. S. for several weeks. He is somewhere in the European war theatre.

"JUNE MAD" WILL ENTERTAIN YOU FRIDAY EVENING

Tonight the Senior play, "June Mad", will be presented in our auditorium at 8:15 before what promises to be a sell-out house.

Those who secure seats, all of which are reserved, will see a thoroughly amusing comedy, full of clever lines and situations.

The love affair of Penny Wood and "Chuck" Harris, played by Dorothy Domenici and Herman Mesquite, is threatened when Penny's collegiate young uncle, Mervyn Roberts ("Chuck" Marriott) brings home a handsome sophisticate, Roger Van Vleck, (John Ray Truscott) who has a very convincing "line".

Amusing character roles are handled by George Hicks as Elmer Tuttle, a hymn-singing handy man; by Delphine Soito as Effie, the distracted cook; and by Sally Logan as Milly Lou, something of a neighborhood pest.

Other members of the cast are: Joyce Karel as the wise, good-humored mother of Penny; Lester Whitaker as her doctor husband; Ernie Pine as "Chuck's" very kindly, but exasperated father; Barbara Bettencourt and Everett De Salles as the unexpected guests, Shirley and Ralph Wentworth; and Harriet Dias as Julia Harris, Mervyn's heart interest.

The play is under the direction of Mrs. Don Hegen. Assisting her are the Stage Crew—Stanley Lewis, Joe Hilton, and Andy Gardetto; the make-up squad—Vivian Rose and Yvonne Tremblay; the property committee—Lucille Raymond, Mabel Cheng, Norma Biale and Lorraine Santana.

The orchestra, under the direction of Mr. Thornburg, will play several numbers.

Admission prices, including tax, are 50c for adults; 25c for children and students with students body cards.

Buy a Bond for Mothers Day HIGH SCHOOL TO HOLD OPEN HOUSE FRIDAY EVENING

Open House is to be held here tonight between 7 p. m. and 8 p. m. to enable people of the community to visit the high school during Public Schools Week and to see exhibits of students' work. Those who attend will have time to make a tour of the school before Senior play curtain time at 8:15.

Mr. Gould said that because of gas rationing we could not expect the public to visit school twice in one week. Since advance sales indicate that there will be a sell-out for the play tonight, it is hoped that many friends of the school will come early and attend two events for the same gallon of gas, the modern version of killing two birds with one stone.

The Evening High School is planning a special farm mechanics exhibit in the shop building, which will be open to the public in the afternoon as well as in the evening, according to Mr. Gravestock, evening high school principal.

Counselors will be in Room 105 or in the office to confer with parents about their children. The Counselors are: Miss Knoles, Seniors and next year's Freshmen; Mrs. Hawley, Sophomores; Mr. Rees, Juniors; and Mr. Gould, Freshmen.

There will be open house held in each room after the program with the teachers and pupils in charge of exhibits displayed. This is held in observance of Public Schools Week. The Eighth Grade pupils will serve refreshments in the school cafeteria.

All parents and members of the PTA are invited to attend the meeting and open house.

PRESSURE COOKERS MAY BE TESTED DURING MAY

Township housewives who possess pressure cookers, even if they were tested last year are urged to bring them in again next month to have them tested. Mrs. Roland Bendel, Washington Township chairman of food preservation states. The old gauge type may be brought in to the P. G. & E. office in Niles and left there by their owners on May 2, 15 and 16.

The newer type of Victory canners, also known as the Burpee or revolving type should be brought on Tuesday, May 9 to the Country clubhouse in Centerville where they will be tested by Mrs. Maryetta Holeman, county demonstration agent. However, Mrs. Bendel should be called in advance at Niles 3411 to have an appointment made. This style of cooker can be tested in about 20 minutes, and housewives may wait for them, if they have an appointment.

The danger of botulism or food poisoning is always present especially in the canning of meats, and the accurate performance of pressure cookers requires that they be tested annually. Pressure cookers are not rationed and may be bought wherever you can find one.

All housewives are urged to attend the food preservation demonstration, promptly at 8 in the Niles Grammar school under the auspices of the Niles P. T. A.

WASLEY RESIGNS AS ALVARADO SCHOOL PRINCIPAL

ALVARADO — Resignation of J. C. Wasley, principal of the Alvarado Grammar School for the past 16 years, was accepted by the board of trustees at a recent meeting held at the home of Mrs. Walter Robie, clerk.

A new principal will be elected at the May meeting of the board when contracts for the remainder of the faculty are issued. Wasley, whose resignation becomes effective June 30, has not announced his plans after that date.

During his residence here he has taken an active part in community affairs, at present acting as chief of the fire department, chief air raid warden and a member of the Chamber of Commerce. Trustees say they have no successor in mind and that no other changes in the faculty are expected.

APRICOT GROWERS SEND APPEAL TO THE PRESIDENT

CENTERVILLE — By a special resolution adopted April 25 by the Eden-Washington Farm Center of the Alameda County Farm Bureau, a letter requesting that a price "to justify the expense" be set on the 1944 apricot crop has been dispatched to President Roosevelt.

The letter was drafted by a special committee following the center's meeting at Washington Union High School here.

"We have faith in you, Mr. President," the message reads, "but OPA and WFA (War Food Administration) have held secret conferences to discuss prices without the knowledge of our growers.

ASK FAIR PRICE

"Processed apricots, dried or canned, are a war food, and farmers will produce if the price is set to justify the expense. Is there any hope that apricot growers may have some assurance of a square deal that will justify the increased production costs?

"If the crop is to be harvested July 1, farmers should know the answer immediately."

Leaders at the meeting said that a 1944 price of \$85 a ton for apricots has been announced in the press and on the radio, but that no official information can be obtained.

EXPECT RECORD CROP

A record apricot crop of some 25,000 tons, which growers estimate should be worth \$2,500,000, is expected this year in Alameda County, according to Tom Morrison, county farm advisor. The estimated tonnage is contingent on favorable weather, however.

Growers said apricots are growing in the county "like bunches of grapes," which will add materially to the cost of thinning the crop.

Copies of the letter to the President will be sent to other Government officials.

The committee which drafted the letter included M. S. Almeida, Joseph C. Shinn Jr., W. J. Valenti, Roy Clark and Vincent and Joseph Russo. All of them are apricot growers in Southern Alameda County.

9 ideas for the re-
freshment of homes

SPRING housecleaning? Of course it can be a nuisance! But it doesn't have to be, as I've discovered long ago. There are dozens of ways to "cut corners" and still do a very thorough job of it (I find some new ways every spring). Let me suggest a few of them:

FLOORS

Floors which are of non-waxed wood need a good bath of soapy water, and then a rinsing with clear water—but if a little furniture polish is added to the rinsing water, cleanliness is improved by real shininess! (Work with the grain of the wood, of course.)

WOODWORK

Wash painted or varnished woodwork with a paste made of mild soap powders and water, then rinse thoroughly with luke-warm water. But remember: wash only a small space at one time, and rub it until dry.

CEILINGS

When you find cobwebs in the corner, up there in the closet, wrap a clean cloth around the business end of a broom and lift them away (if they're brushed into the ceilings and walls, too bad!).

FURNITURE

When hot dishes have been rested on the varnished surface of furniture, leaving white marks, those marks should be rubbed with a damp cloth, seasoned with a few drops of ammonia; then waxed and polished. But do the rubbing and polishing gently, and with the grain.

If piano keys have become yellowed, wipe them with a cloth dipped in alcohol, or with flannel dipped in cologne.

WINDOWS

Are your windows murky with winter film? Then take a cloth wrung out in equal portions of water and vinegar—that takes off the murk. To achieve really clear vision, polish the windows with a generous pad of newspaper, which leaves no lint.

Speaking of windows, how are your sills? It doesn't take a minute to wash them, both inside and out—and a good waxing is insurance against their aging prematurely.

WALLS

The walls of a kitchen or bathroom or children's bedroom—almost any set of walls—may need re-doing these days. Why not refresh them with one of the handy new one-coat paints? Simple to apply (but be sure to read the directions before deciding what to use).

IN GENERAL

Ever notice (back in pre-war days) how swiftly and efficiently the hotel maids cleaned rooms? One reason: they carried all their tools, liquids, etc., with them in a handy basket. There's an idea—saves running back and forth for this and that... makes the job easier!

"TO ADOLF WITH LOVE" (?)

Didn't it tickle you last Thursday, on one A. Schickelgruber's 55th birthday anniversary to hear the field day the radio commentators had, wishing him bad luck and early death?

Such as: "This bomb is presented to Hitler—with love"; or "May you have a nasty birthday, may the bombs fall freely, and may you never have another birthday."

Or: "Wishing you an early demise" etc. etc. Well, our famous American sense of humor was on top, because that single individual has done such damage on earth during the 11 years of his infamous reign that his ill deeds reach into the private homes and private pockets of all of us Americans, as the Great Invasion is poised to strike.

His henchmen hoped to give him for his birthday "present" the physical bodies of all German boys aged 10—to pervert and ruin.

May the lightning soon strike Hitler—and not miss its mark, is the devout wish of one—W. W.

—W. W.—

DEATH STRIKES

Death because of the war has finally struck in your editor's immediate circle of relatives. Mrs. Waynflete reached Oklahoma in time to comfort her sister, whose husband had recently received word that his brother had been killed in action.

The brother, aged 26, was a major in the A. A. F. in England and was on his last mission over Europe before coming home on furlough. He was up for promotion to lieutenant-colonel. Thus a fine young man's life was snuffed out as so many fine lives are being ended by gunfire every minute of these days.

And so death will strike deep into the hearts of many, many American homes before this most wicked of all wars is won. The h—-of it is, there is nothing we The People can do about it but contribute the blood and the lives of our sons, brothers, husbands and fathers—and carry on as bravely as we may in their absence.

"Quo vadis, Magister?" —W. W.

—W. W.—

THE PAPER SHORTAGE

If paper is as short as the government says it is, (although government agencies still waste more paper nowadays than the public does) Washington should prohibit the sale of wrapping paper to grocers and small businessmen until we win the war.

It is no disgrace to carry unwrapped purchases under your arm down the street in war days—or slip small items into your pocket, if you have pockets. So far as marketing goes, the good old wicker market basket used to be an honorable American institution when your scribe was a boy, and its use today by housewives should proclaim their patriotism.

A great many articles come already wrapped in cardboard and waxed paper at grocery stores, yet grocers still wrap them as a courtesy to their customers,—because

they still have the paper available.

Meat, fish and other unwrapped items which are unpleasant or unsanitary to carry by hand still should be wrapped in the usual butcher paper; but the great bulk of your retail purchases are already boxed in such manner you can carry them unashamed in public and thus help to save paper.

If inconveniencing yourself to this trifling extent means that more blood plasma can be sent to the front; more field rations, more ammunition and other supplies, properly wrapped or boxed, then it is a very small thing to ask in the light of the patriotic service your modest sacrifice is making possible.

"A VOICE FROM THE GRAVE" (Contributed)

Generally speaking "Teddy" of the Mission swears she is not at all superstitious or afraid of cemeteries, but when it comes to a very dark windy night and she cuts through the cemetery on her way home from work at the old Mission and suddenly and seemingly out of nowhere comes a deep voice saying, "Ya,—you have to watch it", Teddy froze in her tracks and swears her hair stood on end.

A figure rose from his kneeling position beside one of the graves and was recognized by Teddy as one of the "very devout" of our little town and she demanded, "Watch out for what?" The pious one replies in a very awed tone, "Death, Teddy it sneaks up on you like a 'tief in the night'. Teddy waited for no more, after giving vent to her feelings in no uncertain terms, but got out as quickly as possible. She will probably go the long way around from now on.

A little "piddle" of rain has helped out the local moisture situation to the extent of a third of an inch in the last two weeks, the total now standing at 16.74 as compared with 21.56 to this date last year. (Thanks to the S. P. staff at Niles for the figures!)

MEN'S CLUB ENJOYS FILMS OF STATE'S EARLY HISTORY

The Men's Fellowship club met Thursday evening, April 20 in the Guildrooms of the Niles Congregational Church with 26 members and guests present, with Ted Glassbrook presiding in the absence of Fred Duffie, who was out of town.

An excellent dinner was enjoyed, prepared by Mrs. Jennie Mohn, president of the Sanford Circle, assisted by Mrs. Lloyd Boulter. Dixon Bristow led community singing accompanied by Mr. Thornburg at the piano. Arthur Sartwell of Newark favored with a trombone solo accompanied by Mr. Thornburg.

Guests introduced were Reverend H. L. McCartney, pastor of the Broadmoor Congregational Church in San Leandro, and the speaker of the evening, Leslie J. Freeman, secretary-manager of the San Leandro Chamber of Commerce who gave a background summary of California history, starting from the beginning and then showed four reels of the old California missions, homes of pioneers and other historical buildings still standing or still preserved by the California Society of Pioneers, the Native Sons and others.

He stated that plans are already afoot to hold the next World's Fair—the war permitting—in 1948 and 1949 in Los Angeles to commemorate the 100th anniversary of the discovery of gold, which took place near Coloma on January 24, 1848.

His talk was called "Chasing California History" and he showed colored reels of moving pictures which he had taken himself over a period of years throughout California, all the way from Weaver's on the north to San Diego on the south. His program was intensely interesting and was thoroughly enjoyed.

By reason of the fact the Township Men's club meets in the Niles Church on the Niles club's next regular meeting date, May 18 it was decided to advance the Niles club's next meeting to the evening of Thursday, May 25 which will be the last spring meeting before summer vacation—and it will be LADIES NIGHT! DAYLIGHT SAVING PLAN FOR REPEAL GAINS ATTENTION

CENTERVILLE — Re-actions favorable and otherwise to the recently-voted resolution by the Ed-Ed-Washington Farm Center asking for abandonment of daylight saving time were apparent at last week's meeting of the center in letters and telegrams received from State and Federal officials.

A letter from Gov. Earl Warren referred the center to enclosed telegram received early this year from President Roosevelt asking that the present time schedule be continued in view of savings in light and power consumption. A communication from Senator Sheridan Downey said he was in favor of returning to standard time and another from Congressman Albert E. Carter said he would do all he could to have it changed, according to Franklin Brown, center president.

An all-time record membership of 237 in the local center was reported with total enrollment in the Alameda County Farm Bureau given as 513. A new member, A. J. Petsche of the P. G. & E. was introduced.

Tom Morrison, farm adviser gave a resume of recent WFA and OPA regulations of farm matters. He said recent rains had "saved the range lands" but that many cattlemen were still feeding their stock and were seeking decreased restrictions on slaughtering so that lean cattle could be shipped to slaughter pens.

MAIN LINE of POWER in Northern California

the PIT

TRANSMISSION LINES DELIVER POWER FROM ELEVEN MIGHTY GENERATORS

Serving as a giant conveyor belt, the copper cables of the 250-mile Pit River transmission lines swing down the Sacramento valley to deliver energy of nearly half-million horses to war busy Northern California. Tied into the interconnected power system of this company, Pit power has been one of the main reasons why electricity here has never been rationed nor has it ever failed to meet heavy wartime demand.

The Pit River development was begun by P. G. & E. some twenty years ago with two generators. Today there are seven generators in service day and night. Soon four more giant generators of the new Pit 5 powerhouse will be connected into the Pit transmission lines. These eleven mighty generators are evidence of the steadfast policy of this company to bring the advantages of electric service to the greatest number of people at the lowest possible rates. By constantly improving its service and adding to its supply of electric energy, the P. G. & E. is a dependable and active partner in the upbuilding of California.

From this central office the electric load dispatcher switches power from sixty-five powerhouses through 500 substations for service on over 50,000 miles of power lines.
